

Master Plan Committee

Minutes

March 28, 2016

James Pritchard, Roland Carter, Ralph Odell present

7:05 called to order.

Minutes previous meeting approved.

Discussion:

An upcoming meeting will be help with the Planning Board and a Public Hearing is being planned.

The various topics were reviewed. J.P. brought up that the rate of births and deaths does not explain the change in population in Town. He questioned if young people were leaving Town and older individuals moving in?

Road maintenance should be planned for the future like a CIP .

1. It is less expensive to maintain roads rather than to let them degrade and a major repair is needed.
2. A road surface management program should be established, at no cost.

Adjourn 8:27

Respectively submitted

Ralph Odell
