In the case of cremains, disinterment requires proof of ownership of the cremains and a signed statement from the owner. In all cases, the responsibility of the cemetery trustees shall be limited to authorizing the opening. The opening of the grave and the actual disinterment must be made by the person authorized to do so.

The cemetery trustees shall be under no duty to recognize any protests of interment unless they are in writing and filed with the cemetery trustees.
- K. Removal, by the heirs, of a body or cremated remains so that the plot may be sold, or removal contrary to express or implied wish of the original plot owner, is forbidden.
